

CLEANBOX™

OmniClean 2

Smart, Safe, Rapid Decontamination for Any Shared Device

PRODUCT SPECS

Cleans Any Device to 99.999% Decontamination in 60 Seconds. Patented engineering for maximum efficacy

12.5" h x 14.3" w x 17.9" d - 22 lbs
689.7 cubic inch internal cleaning area

UVC LED lights certified for 10,000 hours of continual use
(600k Cleaning Cycles)

Lightweight, portable, durable

IMPORTANT FACTS:

- Quartz turntable, PTFE reflective surfaces, UVC LEDs in the floor, ceiling, rear, and sides of the unit deliver full 360-degree decontamination (99.999%) with no shadow areas in 60 second cleaning cycle.
- Can use any power source in the world from 100-240V, 50-60Hz and can operate on a battery pack.
- Cleanbox patented UVC engineering does not damage plastics, lenses, or electronics and is completely safe for long-term use at the dosage and intensity of Cleanbox engineering.
- Cleanbox UVC LEDs operate at 265nm (the sweet spot that affects the largest cross-section of contagions). Cleanbox UVC LEDs do not emit heat, ozone, or use mercury as with UVC bulbs and tubes.

HOW UVC DESTROYS VIRUSES

@cleanboxtech

Cleanbox products are built with ISO 9001 certified materials, manufactured and assembled in the USA in an FDA-certified facility. Meets all UL, CE and FCC regulations.
